

DEPARTMENT OF COMMUNITY MEDICINE

VISION:

To serve as a unit of excellence in providing quality education, conducting research activities & providing best health services to the community.

MISSION:

To provide the best learning facilities to the students through community based education & encourage them in providing preventive, promotive and curative health services to the community.

ABOUT THE DEPARTMENT:

The department is facilitated with a Museum, containing models, laminated charts, specimens & instruments. The teaching learning methods include the chalk and talk method, use of audio visual aids, PPT presentations, small group discussions and demonstrations.

ACTIVITIES:

To enhance health care services to the rural communities, the department has adopted several wards and villages around Sangareddy. It initiates in planning & organizing National Health Days, Awareness programmes, Rallies, Surveys & Health check up camps in the adopted areas.

The department along with NSS cell conducts various activities for promotion of health and well being. The masses are educated about Communicable & Non communicable diseases, Water purification & Sanitation measures, Dietary and Nutritional advices, prevention of Occupational Diseases, Mother & Child Care with Family planning, Mental health and about various National Programmes conducted by the Government of India.

As a part of the curriculum the department organizes visits to Primary Health Centre, Milk Dairy, Water Purification plant, Sewage treatment plant, Industries and Infectious hospitals.

The department strives to create a cadre of professionals who can contribute their expertise in prevention and management of diseases & promotion of health. .
